Note: All participants in the selection process will be informed of the score.

**They will be sent in zip format as: first\_name\_section\_name, on [wetransfer.com](http://wetransfer.com) or [airbridge.com](http://airbridge.com) (details in the sign up guidelines)**

### Risk of Disqualification

Participants who deviate from the rules of the competition and the registration rules for each category will be automatically disqualified without the right to re-enroll

## Eligibility

- Individuals meeting the following conditions are eligible to participate in the competition
- All participants must be aged between 6 and 19.
- Minor participants must be accompanied by an adult. A group of minors must be accompanied by at least one adult

## How to participate and select:

- The whole process will be filmed (MP4 format), the video will represent the enrollment in the contest and will be accompanied by a research file.
- The papers related to this category must be done individually, no work done in the team is accepted. The papers will be judged by a committee of 3 jurors, scientists.
- Each juror will award a score on a scale of 1 to 10, and the final mark will be the sum of the three scores.
- The maximum score can be 30 and the minimum score can be 0.

- At this section, up to 30 participants will be selected in the selection process.
- The materials will be sent in zip format as it follows: name\_surname\_category\_country, on [wettransfer.com](http://wettransfer.com) or [airbridge.com](http://airbridge.com)
- Approach:
  - The theme can be approached simplistically by following a life cycle of a plant, animal or human. Here the approach will be a scientific one regarding the phenomenon that occurs in the development of the chosen subject.
  - At the same time, you can choose topics such as hybrid plants, animal-animal impersonations, human abnormalities in the life cycle, and the new life cycle of the Saudi Arabian citizen's robot.
- Points to view:
  - Current state.
  - What does it mean to be alive? The plants have a life? What is the soul?
  - Human intervention on the chosen lifecycle, what it consists of and what effects it has.
  - Personal opinion.
- Bonus points:
  - Innovative and courageous approach, accompanied by pros and cons where there are dilemmas of ethics, morality.
  - The creative way of the presentation.
- Presentation:
  - Plagiarism on the internet is prohibited. The Internet can be used for documentation but the material needs to be made by you directly.
  - We also get powerpoint presentations, but we appreciate short films that tell us the story briefly, or you can present us with an experiment on the topic chosen.
  - Obligatory accompanies the submission of the researcher file.
- Download the researcher's file and the science brief you'll need from here (or you can copy - paste them from the above): <http://www.kleine-schule.ro/festival-international-2/>
